

The Occupational Safety and Health Administration has offered the following guidance for construction workers, to reduce the risk of coronavirus (COVID-19).

WHEN WORKING IN THE CONSTRUCTION INDUSTRY, THE FOLLOWING TIPS CAN HELP REDUCE THE RISK OF EXPOSURE TO THE CORONAVIRUS:

- ▶ Encourage workers to stay home if they are sick.
- ▶ Allow workers to wear masks over their nose and mouth to prevent them from spreading the virus.
- ▶ Continue to use other normal control measures, including personal protective equipment (PPE), necessary to protect workers from other job hazards associated with construction activities.
- ▶ Advise workers to avoid physical contact with others and direct employees/contractors/visitors to increase personal space to at least six feet, where possible. Where work trailers are used, all workers should maintain social distancing while inside the trailers.
- ▶ Train workers how to properly put on, use/wear, and take off protective clothing and equipment.
- ▶ Encourage respiratory etiquette, including covering coughs and sneezes.
- ▶ Promote personal hygiene. If workers do not have immediate access to soap and water for handwashing, provide alcohol-based hand rubs containing at least 60 percent alcohol.
- ▶ Use Environmental Protection Agency-approved cleaning chemicals from [List N](#) or that have label claims against the coronavirus.
- ▶ To the extent tools or equipment must be shared, provide and instruct workers to use alcohol-based wipes to clean tools before and after use. When cleaning tools and equipment, workers should consult manufacturer recommendations for proper cleaning techniques and restrictions.
- ▶ Keep in-person meetings (including toolbox talks and safety meetings) as short as possible, limit the number of workers in attendance, and use social distancing practices.
- ▶ Clean and disinfect portable jobsite toilets regularly. Hand sanitizer dispensers should be filled regularly. Frequently-touched items (i.e., door pulls and toilet seats) should be disinfected.
- ▶ Encourage workers to report any safety and health concerns.
