

PREVENT DROPPED OBJECTS FROM HEIGHTS

KEEP YOUR TOOLS SAFE AND SECURE

When working at any height above ground, dropped objects can cause serious risk and injury. One of the easiest ways to protect workers and people in the surrounding area is to secure loose tools. Check out the different ways to safely store tools below.

For more information about protecting workers on the jobsite, contact your local Amerisure risk management consultant at **(800) 257-1900** or riskmanagement@amerisure.com.
