FALLS ON A SURFACE LEVEL

AMERISURE CAN HELP YOU PREVENT FALLS

Our risk management consultants provide complimentary, competent person training focused on fall protection. Designed for those responsible for fall protection, the training is valuable and relevant, regardless of whether your work is at a construction jobsite or in a manufacturing plant.

Some objectives of the training include:

- ▶ Recognition of when and where fall protection is needed
- ▶ Review of Occupational Safety and Health Administration standard 1926 Subpart M
- ▶ Understanding of the fall protection hierarchy
- ▶ Selection of the right equipment for the job
- ▶ Inspection, use, care and maintenance of fall protection equipment

Participants also have the opportunity to participate in numerous hands-on activities and demonstrations. The course provides key personnel with an advanced level of fall protection knowledge that can improve safety in the workplace.

Better safety translates directly to improved employee morale, higher quality workmanship, greater productivity and a competitive advantage.

SCHEDULE YOUR TRAINING

To schedule your one-day fall prevention training, contact your risk management consultant at (800) 267-1900 or riskmanagement@amerisure.com.
