

WE MAKE LOSS SENSITIVE PROGRAMS SIMPLE

For your larger clients who are interested in a risk sharing option that will match their opportunity for financial reward with their appetite for risk, Amerisure offers a variety of Special Risk (SR) solutions.

OUR APPROACH

- ▶ We listen to your needs and collaborate with you to build the right program for your client
- ▶ Total transparency throughout the process of administering policies
- ▶ No master premium agreement required

FLEXIBLE COLLATERAL REQUIREMENTS

- ▶ We have the best collateral terms in the industry
- ▶ We never stack collateral

BROAD COVERAGE AND PROGRAM STRUCTURES

Mono-line and combined-lines programs available for Workers' Compensation, General Liability, and Automobile policies.

Large Deductible (\$500,000 premium eligibility)

- ▶ Paid Loss, Incurred Loss or Pre-funded
- ▶ Competitive aggregate attachments
- ▶ No letter of credit required for Pre-Funded

Retrospective Rating Plans (\$300,000 premium eligibility)

- ▶ Paid Loss, Incurred Loss or Hybrid (Paid on Incurred Retro)
- ▶ No letter of credit required for Incurred Loss or Hybrid

OUR GOAL? REDUCE THE TOTAL COST OF INSURANCE.

With the support of Amerisure's service teams, loss sensitive policyholders are well positioned to reduce losses and save premium dollars.

Controlling Risk

Our risk management experts work closely with you and your clients to proactively prevent loss through a consultative approach.

- ▶ **Foundational** — behavioral safety assessment, workplace safety culture, OSHA authorized training and more
- ▶ **Innovative** — wearables, telematics, virtual reality training and more

Superior Claims Service

We offer your clients claim cost reduction programs supported by industry-leading claims adjusters.

- ▶ SureClaims[™] service standards
- ▶ Adjusters have lower workloads than the industry average, with target pending levels of 90 claims

National Service Platform

National service coordinators serve as a lead point of contact for accounts with expansive geographic footprints.

- ▶ Develop policyholder service models based on their unique needs
- ▶ Analyze account data to identify loss trends and explore options for reducing loss costs
